

Bathroom Lock

36045 magnetic latch / bathroom lock

- Silent closing of the door
- Magnetic latch bolt restricted by lever handle
- Latch bolt stays retracted by lever handle
- Latch bolt automatically engaged into strike when door is closed
- Bathroom turn when rotated disengages lever handles so they do not operate the latch
- Universal latch / bathroom lock can be used for all internal doors
- Adjustable strike plate with no projecting lip
- No separate deadbolt ensures a small strike plate
- Suitable for through fixed lever handles
- Ideal for use with concealed frame doorset systems
