

Digital Locks

2450 heavy duty electronic digital lock 2450F intumescent kit for FD60 timber door

This new generation electronic digital lock features patented technology that enables it to generate its own power every time the lever handle is operated, which means that the batteries never need to be replaced.

The locks are heavy duty and are designed for locations where they will be subject to frequent use.

- Up to 100 different access codes
- Easy to program via the keypad without removing the lock from the door
- Key override available which can be integrated into a master key system
- Passage function can be set to allow code-free entry
- Lockout anti-tamper function
- Suitable for doors up to 65mm thick
- Reversible latch for LH or RH doors
- Suitable for internal and external use
- Suitable for FD60 fire rated doors when fitted with the intumescent kit

Maintenance

To be carried out by approved specialist only.

No abrasives or chemical materials to be used. Wipe with soft damp cloth, or when necessary, warm soapy water and a soft cloth. At least once a year, check for correct tolerance and wear, and tighten any screws that may become loose.

If for any reason the products fail due to a defect in manufacture, contact us and we will advise you of the replacement procedure
