Maintenance

To be carried out by approved specialist only.

No abrasives or chemical materials to be used, wipe with soft damp cloth, or when necessary warm soapy water and a soft cloth. Every three months check that the lever handle grub screw is flush with the surface on the handle. If it is projecting retighten it. If the rose is loose remove the rose cover and tighten the through fixing bolts

If for any reason the products fail due to a defect in manufacture contact us and we will advise you of the replacement procedure
